photographers

Don't miss **Adam Williams**

At this year's convention

Adam is one of Australia's new generation of digital photographers specialising in Composite Landscapes. Describing his work Adam says: "For me it's all about communicating emotion. Powerful imagery makes you feel something: elated, depressed, uplifted, in despair, makes you shed a tear or remember the good times past. My passions, concerns, emotions all play a part in producing a final image. This can often result in my work varying wildly from the given scene."

Adam is the lead Sunday morning speaker with a presentation titled "The Search for Meaningful Photography." He is also conducting a workshop on Sunday afternoon - "Creative Photoshop Wizardry".

Adam specialises in Photoshop education. He has been running workshops since 2013, teaching hundreds of students the skills and techniques to quickly improve their photography and the confidence and knowledge to take their passion further.

Adam is generously making available his **Essentials Online Photoshop** course, valued at \$149.00, **FREE** to all registrants to the convention. – Recover most of your three day registration fee!
